

Communications Committee

Our Mission:

This committee, which was long dormant, is being restarted with the general mission of assisting the parish with communications. Specifics have not yet been determined.

Activities:

A possible project is to assist the parish with the preparation of periodic electronic newsletters. The initial focus of the committee will be to determine whether this is feasible, and if yes, to follow through accordingly.

Skills Needed:

Volunteers with skills in writing, editing, photography, electronic communications, website work, etc. are welcome.

Time Commitment:

Time commitment will depend on the activities chosen by the committee, and the interests and skills of committee members. Meetings will be held periodically as needed.

Questions?
