

## **Parish Website**

([www.saintfrancisborgia.org](http://www.saintfrancisborgia.org))

### **Our Mission:**

To build, maintain, and operate a website that informs, educates, inspires and serves as a vehicle for communication within our parish, school, and greater Catholic Community.

### **Skills Needed:**

Our parish website was developed and is being maintained on an all-volunteer basis. We need people to help maintain the site and to work on new features.

**Do you know HTML? Database design?  
Do you want to help improve our parish website?  
Then we're looking for you!!!**

### **The range of technical skills needed is quite wide:**

- ❖ *Moderate HTML expertise* to convert electronic content and insert into a database and to edit existing static content.
- ❖ *Moderate to Advanced DHTML expertise* to develop dynamic navigation system
- ❖ *Moderate to Advanced PHP and MySQL expertise* to develop specific dynamic site features
- ❖ *HTML Expertise* to maintain existing static content, including file download/upload, file modification, and CSS experience.

### **Volunteers are also needed to help with:**

- ❖ *Content Management:* Writers and Editors
- ❖ *Photo Gallery:* Online Photo Editors
- ❖ *Site Marketing:* Publicity

### **Development Process**

A development site has been established away from the public site. Volunteers will likely need to load some common software for working on web sites (we'll help you!!). For the more technically inclined, it is fairly straightforward to create the entire environment on a home machine.

### **Time Commitment:**

The time commitment is up to you. There's plenty to do!

- ❖ You can help on a short term basis with specific tasks and projects.
- ❖ You can join the committee for ongoing involvement.

### **Questions?**
